Absolutely unique in Son Font! This is probably the only property with a construction license in Son Font. On this rather unusually flat plot one can build a villa with 250m<sup>2</sup>, 2 floors, underground parking and pool. The property impresses by a breathtaking panoramic sea view over the southwest coast of Majorca. Included in the price is the construction license for the creation of a mediterranean-modern villa with luxurious features in terms of design and technology.
