860M²

860M²

IN PROCESS

A unique opportunity for a 5 storey entire building/townhouse in the picturesque center of Montuiri very close to the beautiful Cathedral. The entire house is for sale and has about 180m² each on the first four levels and about 150m² on the top floor. On the lowest level there is also a small garden with a beautiful view of the extensive Montuiri countryside. The building has very high ceiling heights (except for the lowest and highest attic floor) and in the current state the layout is laid out on three floors with 3 bedrooms each and at the bottom and in the attic each 2 bedrooms. However, you can completely change the layout. This property has extremely great potential at an extremely low price. You could also sell each level on its own, or the entire building. 20 minutes to Palma City.
